HOT AIR NEWSPAPERS

Did you ever hear the hot air artist on the street corner? Well, Mark Twain said: "The hot air artist is composed of 50 per cent wind and 50 per cent dampfool, the two combined making hotair."

Hotair newspaper circulation is made of the same material. Beware of newspapers that use hotair to boost their subscription list--Mark Twain aptly described them.

Subscription books open to all--no hotair about this.
